

DIVIDEND POLICY

The declaration and payment of dividends on our Equity Shares, if any, will be recommended by our Board and approved by our Shareholders, at their discretion, subject to the provisions of the Articles of Association and the Companies Act. The dividend distribution policy of our Company was approved and adopted by our Board on August 18, 2020. The dividend, if any, will depend on a number of internal factors, including but not limited to our Company's net operating profit, capital expenditure and working capital requirements, financial commitment with respect to the outstanding borrowings and interest thereon, financial requirement for business expansion, diversification or acquisition of new businesses, provisioning for financial implications arising out of unforeseen events or contingencies, past dividend trend, and capital adequacy ratio. In addition, the dividend, if any, will also depend on a number of external factors including but not limited to applicable laws and regulations including taxation laws, economic conditions, prevalent market practices, and dividend payout ratio and comparison of dividend payout by the competitors.

Further, our shareholders may not expect dividend in certain circumstances including growth opportunities which require our Company to allocate a significant amount of capital, in the event of a higher working capital requirement for business operations or otherwise, inadequacy of cashflow available for distribution, inadequacy or absence of profits, and under any other circumstances as may be specified by the Companies Act, applicable regulatory provisions or any contractual obligation entered into with the lenders.

In addition, our ability to pay dividends may be impacted by a number of factors, including restrictive covenants under the loan or financing arrangements our Company is currently availing of or may enter into to finance our fund requirements for our business activities. For further details, see "*Financial Indebtedness*" beginning on page 360.

Our Company may also, from time to time, pay interim dividends. Our past practices with respect to the declaration of dividends are not necessarily indicative of our future dividend declaration. For details in relation to risks involved in this regard, see "*Risk Factors – Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements*" on page 43.
