Summary of Material accounting policies and other explanatory information

Where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under such contract, the present obligation under the contract is recognised and measured as a provision.

Contingent assets:

Contingent assets are not recognised. A contingent asset is disclosed, as required by Ind AS 37, where an inflow of economic benefits is probable..

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

2.20 Commitments

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

- estimated amount of contracts remaining to be executed on capital account and not provided for;
- other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management.

2.21 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less costs to sell.

2.22 Exceptional items

An item of income or expense which its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Group is treated as an exceptional item and the same is disclosed in the notes to accounts.

2.23 Statement of cash flows

Statement of cash flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

3. Critical accounting judgements and key sources of estimation uncertainties

The preparation of the restated consolidated financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the period. The Management believes that the estimates used in preparation of the restated consolidated financial statements are prudent and reasonable.

Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

Expected credit loss

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and credit assessment and including forward-looking information. In certain cases, the assessment based on past experience is required for future estimation of cash flows which requires significant judgment.
